

March 26, 2022 (31 day)

As of today, the front line is 1,800 km.

The town of **Slavutych**, with a population of 25,000, remained isolated for a long time. After four days of fighting, the enemy entered the city today. The city was shelled with tanks, artillery and mortars. The Russian military seized the city hospital and opened warning fire and pelted people with light and sound grenades (one killed and two wounded).

The situation on the outskirts of **Kyiv** remains tense. The settlements of Nemishayevo and Tarasivka are on the verge of a humanitarian catastrophe. There is no electricity supply in the Sviatoshynskiy district of Kyiv, which has led to the power outage of three pumping stations in the capital.

Yesterday, March 25, a shell hit a gas pipeline in **Kharkiv**.

Yesterday, March 25, a children's rehabilitation center in **Mariupol** was bombed, which was opened in the city only six months ago with the support of the European Development Bank. The United Nations has confirmed the existence of mass graves in besieged Mariupol.

Yesterday, March 25, the occupiers destroyed the archives of the Security Service of Ukraine in **Chernihiv**.

In the evening of March 25 in the Korosten district of the **Zhytomyr** region as a result of an artillery strike one apartment house was destroyed and four houses were damaged.

In Severodonetsk, **Luhansk region**, the Russian military strikes at food warehouses. There have been several enemy hits over the past week. This is the desire to leave the city without food. In Severodonetsk, several houses are on fire, a mine has been cut off electricity due to shelling. Water supply in Rubezhnoye has been partially restored. During the past 24hrs, 10 houses in Luhansk region were damaged and three people died.

In Melitopol, **Zaporizhia region**, the occupiers are collecting information about the whereabouts of people who oppose the Russian occupation through representatives of the commandant's office.

** The facts described in the analytical information are confirmed by the materials of the Ministry of Defense of Ukraine*
